**Did you know that Thanksgiving Dinner can be an aphrodisiac meal?**

- ◆ Celery contains androsterone a powerful male hormone that stimulates female sexual arousal.
- ◆ Fennel contains an estrogen-like substance called estriol that not only will boost your libido, but will also help alleviate post-dinner bloating and cure many PMS-related symptoms.
- ◆ Figs are high in the sex-drive-boosting Vitamin A (important for the reproductive and circulatory systems).
- ◆ Pumpkin Pie it's also an olfactory sexual aphrodisiac. the aroma of pumpkin pie increases blood flow to the penis by 40 percent. It works even better when combined with the scent of lavender. And it's not just the smell that gives rise. When consumed, pumpkin provides a healthy dose of zinc, an element necessary for healthy blood flow and testosterone production.
